## 1 Identification of substance

- **Product details**
- **Trade name:** Carbona oven cleaner
- **Formulation-no.:** 13122004
- **Application of the substance / the preparation:** Cleaning material/ Detergent
- **Manufacturer/Supplier:**  
delta pronatura  
Kurt-Schumacher-Ring 15-17  
63329 Egelsbach  
Germany  
  
Telefon: int +49-(0)6103-4045-0  
Fax: int +49-(0)6103-4045-190
- **Distributor:**  
Delta Carbona L.P.  
376 Hollywood Ave., Suite 208  
Fairfield, NJ 07004  
telephone: (973)808-6260  
fax: (973)8008-5661
- **Information department:** see above
- **Emergency information:** Emergency toll free 1 888 746 5599

## 2 Hazards identification

- **Hazard description**  
Irritant
- **Information pertaining to particular dangers for man and environment**  
Irritating to eyes and skin.
- **Classification system**  
The classification was made according to the latest editions of international substances lists, and expanded using company data and specialized literature.
- **NFPA ratings (scale 0-4)**

- **Additional information:**  
This preparation is despite of the extreme ph-value of  $\geq 11,5$  not classified as corrosive with R 35 as irritant, since there are specific limits determined in Annex I of Directive 67/548/EEC for the corrosive components contained.  
Available test results warrant a classification as non-corrosive.

## 3 Composition/Data on components

- **Chemical characterization**
- **Description:** Aqueous solution of special active agents:
- **Dangerous components:**

126-92-1 Sulfuric acid, mono(2-ethylhexyl) ester, sodium salt	< 2.5%
1310-73-2 sodium hydroxide	< 2.5%
- **TSCA**  
All components are listed.

#### 4 First aid measures

• **General information:**

Immediately remove any clothing soiled by the product.

Be sure to show this safety data sheet, the packaging or the instructions for use to the physician.

• **After inhalation:**

In case of inhalative exposure to vapours/aerosols during processing:

Supply fresh air; consult doctor in case of complaints.

• **After skin contact:**

Wash with water and soap and rinse carefully.

If skin irritation continues, consult a doctor.

• **After eye contact:**

Rinse the eyes with open eyelids for 10 - 15 minutes with water. Then consult a doctor or better an eye specialist.

• **After swallowing:**

Rinse mouth with water.

Drink plenty of water, but never give anything to an unconscious person.

Do not induce vomiting

Seek medical treatment.

• **Information for doctor:**

• **The following symptoms may occur:** Local irritation symptoms

• **Danger:** Caustic solutions may induce soaking and dissolution of the skin and mucous membranes (colliquation necrosis)

• **Treatment:** Symptomatic treatment

#### 5 Fire fighting measures

• **Suitable extinguishing agents:**

Water spray

Fire-extinguishing powder

Carbon dioxide

Use fire fighting measures that suit the environment.

• **Special hazards caused by the material, its products of combustion or resulting gases:**

Dangerous decomposition products see chapter 10: stability and reactivity

• **Protective equipment:** Wear self-contained respiratory protective device.

• **Additional information:**

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

Collect contaminated fire fighting water separately. It must not enter the sewage system.

#### 6 Accidental release measures

• **Person-related safety precautions:**

Ensure adequate ventilation

Particular danger of slipping on leaked/spilled product.

Wear protective clothing.

• **Measures for environmental protection:**

The following information refer to the leakage of large quantities:

Do not allow product to reach sewage system or any water course.

Do not allow to penetrate the ground/soil.

• **Measures for cleaning/collecting:**

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Send for recovery or disposal in suitable receptacles.

(Contd. of page 2)

· **Additional information:**

- See Section 8 for information on personal protection equipment.
- See Section 7 for information on safe handling
- See Section 13 for disposal information.

## 7 Handling and storage

· **Handling**

· **Information for safe handling:**

- Open and handle receptacle with care.
- Avoid contact with eyes and skin.

· **Information about protection against explosions and fires:** No special measures required.

· **Storage**

· **Requirements to be met by storerooms and receptacles:** Provide alkali-resistant floor.

· **Information about storage in one common storage facility:**

- Store away from foodstuffs.
- Store away from feed.
- Do not store together with acids.
- Do not store together with ammonium salts.

· **Further information about storage conditions:**

- Keep receptacle tightly sealed.
- Protect from frost.

· **Storage class:** Non combustible liquids (VCI).

· **Specific applications** Please pay attention to the information on the label.

## 8 Exposure controls and personal protection

· **Additional information about design of technical systems:** No further data; see item 7.

· **Components with limit values that require monitoring at the workplace:**

- The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

· **Personal protective equipment**

· **General protective and hygienic measures:**

- The usual precautionary measures for handling chemicals should be followed.
- Do not eat, drink, smoke or sniff while working.
- Immediately remove all soiled and contaminated clothing
- Avoid contact with the eyes and skin.
- Do not inhale gases / fumes / aerosols.
- Clean skin thoroughly immediately after handling the product.
- The following instructions regarding the protective equipment refer to the industrial use of larger quantities.
- Use skin protection cream for skin protection.
- Provide eye wash facility.
- All protective equipment used shall be according to 29 CFR.1910 Subpart I Personal Protective Equipment

· **Breathing equipment:**

- Use suitable respiratory protective device only when aerosol or mist is formed.
- A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant a respirator's use.
- Always use a NIOSH or European Standard EN 149 approved respirator when necessary.

· **Protection of hands:**

- Chemical resistant gloves
- To avoid skin problems reduce the wearing of gloves to the required minimum.
- The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
- Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

**Trade name: Carbona oven cleaner**

(Contd. of page 3)

After use of gloves apply skin-cleaning agents and skin cosmetics.

· **Material of gloves:**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· **Penetration time of glove material:**

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· **Eye protection:** Safety glasses

· **Body protection:** Protective work clothing.

## 9 Physical and chemical properties

· **General Information**

**Form:** Fluid  
**Color:** White  
**Odor:** Odorless

· **Change in condition**

**Melting point/Melting range:** undetermined

**Boiling point/Boiling range:** undetermined

· **Flash point:** Not applicable

· **Self ignition temperature:** Product is not selfigniting.

· **Danger of explosion:** Product does not present an explosion hazard.

· **Density:** Not determined

· **Solubility in / Miscibility with Water:**

Miscible

· **pH-value at 20°C (68°F):** 12.9  
in delivery state

· **Solvent content:**

**VOC:** 0 %  
(Ca VOC)

## 10 Stability and reactivity

· **Thermal decomposition / conditions to be avoided:** No decomposition if used and stored according to specifications.

· **Materials to be avoided:**

Acids  
Ammonium salts

· **Dangerous reactions**

Strong exothermic reaction with acids  
Reacts with ammonium salts forming ammonia(gas).

· **Dangerous products of decomposition:** No dangerous decomposition products known

## 11 Toxicological information

· **Acute toxicity**

· **LD/LC50 values that are relevant for classification:** No toxicity data are available for the product itself.

· **Primary irritant effect:**

· **on the skin:** Irritant to skin and mucous membranes.

- **on the eye:** Irritating effect.
- **Sensitization:** No sensitizing effects known.
- **Additional toxicological information**  
Due to its extreme ph value the product was tested in "Human Skin Model Test" concerning possibly corrosive properties. Result: non-corrosive  
After swallowing: irritations of mucous membranes in the mouth, pharynx, oesophagus and gastrointestinal tract.

## 12 Ecological information

- **Information about elimination (persistence and degradability):**
- **Other information:** The product has not been tested.
- **Behavior in environmental systems**
- **Mobility and bioaccumulation potential:** The product has not been tested.
- **Ecotoxicological effects**
- **Acquatic toxicity:** Presently there are no ecotoxicological values available.
- **Remark:** The product has not been tested.
- **General notes:** Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## 13 Disposal considerations

- **Product**
- **Recommendation:** Disposal according to instructions of local authorities.
- **Uncleaned packagings**
- **Recommendation:** Do not re-use empty packagings.

## 14 Transport information

- **Land transport ADR/RID (cross-border)**
- **ADR/RID class:** No hazardous material according to the regulations
- **Maritime transport IMDG**
- **IMDG Class:** No hazardous material according to the regulations
- **Marine pollutant:** No
- **Air transport ICAO-TI and IATA-DGR**
- **ICAO/IATA Class:** No hazardous material according to the regulation

## 15 Regulations

- **Carcinogeny categories**
- **EPA (Environmental Protection Agency)**  
void
- **IARC (International Agency for Research on Cancer)**  
void
- **NTP (National Toxicology Program)**  
void
- **TLV (Threshold Limit Value established by ACGIH)**
